

I give permission for _____ to participate in the Vikings Robotics program during the 2018-2019 school year.

My student may also take part in after school, before school, evening and weekend training or practice sessions that deal with preparing for the competitions. Additionally, permission is given to take part in field trips or study trips to museums, colleges or other educational institutions. I will transport or arrange transportation to and from meetings and take responsibility for picking up my student at correct times. I understand all the adults involved are volunteers and cannot and will not act as a transportation service or supervise my child after a meeting, work, or study session has ended.

Some study and work sessions will take place at La Jolla High School in the Robotics workshop or computer rooms. Some study and work sessions may take place at the homes or workplaces of the team coaches. So, please be prompt when making travel arrangements to or from study sessions.

Different events require the use of scientific equipment, chemicals, hand and power tools. I understand that proper adult supervision will be present at these sessions and all appropriate safety rules will be enforced and followed. Any student not able to meet the behavior or work habits necessary will be asked to leave so as not to endanger people, equipment or supplies.

If an accident does occur, then permission is given for proper treatment to be applied. Parent or guardian contact will be made as soon as possible, but medical treatment may be given if the parents or guardians cannot be contacted.

Melanie Saddler, Joe Winograd, Jim Whitecraft and Jill Rogers
